RE: 10/081036 "CARDONE" PETITION TO MAKE SPECIAL

Dear Commissioner Of Patents:

I am writing to petition to make special application number 10/081 036 titled "CARDONE".

This patent application has been processing since 2/02/2002.

It is directly related to the security of the United States of America. It consists of a system which will secure all sterile areas of our airports, and identify all commercial air travelers and also aviation related employees.

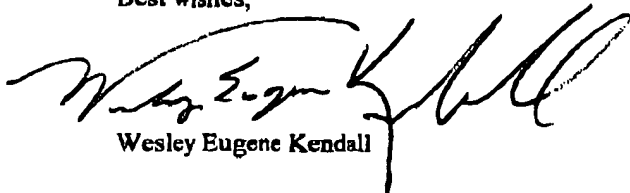

The facts are as follows:

- ✓ Current legislation requires this type system be implemented for Homeland and Aviation Security.
- ✓ This system will directly impact the security of Aviation preventing acts of terrorism like those of the New York World Trade Center Catastrophe.
- ✓ The processing of this application is necessary for its serious implementation by the TSA and other Departments.
- ✓ A proposal for is currently pending with the TSA.

It is consistent with the requirements of a proper request for an expedited Examination and currently falls under those guidelines.

Would you please take it under serious consideration for special petition?

Best wishes,

Wesley Eugene Kendall
